CONYERS DRIVER'S LICENSE FACILITY IS MOVING

The Department of Motor Vehicle Safety (DMVS) has announced that the Conyers driver's license office located at 2148 Iris Drive will move to the Agency's headquarters building located approximately five miles away at 2206 East View Parkway near the Georgia International Horse Park. The last day of operation at the Iris Drive facility will be Friday, May 28th, and the new 2206 East View Parkway location will be open for business Tuesday, June 1st.

Currently, the headquarters location is the only driver's license facility open on Monday and offers a limited number of services. With the relocation, the hours will be Tuesday through Saturday from 9:00am – 5:00pm for driver's license services including testing, renewals and reinstatements. This will standardize the hours of operation for all the driver's licensing facilities in the metro Atlanta area. The East View Parkway location will not offer motorcycle testing. Those needing the motorcycle test may visit the Lithonia or Covington facilities.

Those who need to take care of commercial vehicle compliance business or need to speak with a member of the Fraud Unit at DMVS headquarters, may do so Tuesday through Friday from 9:00 until 5:00pm unless an appointment has been arranged for a specific time.

The East View Parkway facility is well designed with a lobby management system, 18 customer service windows, a large waiting room with plenty of chairs and free parking spaces. It is approximately three times as large as the present office.

"Our vision is to modernize and continuously improve the way the DMVS conducts business emphasizing customer service and convenience. This will be a much more efficient and comfortable place for drivers in the Rockdale/Newton county area to take care of their motor vehicle business," said DMVS Commissioner James R. Davis.
